## New and replacement batches of Ph. Eur. reference standards

The European Directorate for the Quality of Medicines & HealthCare (EDQM) announces the release of:

- o **6 new** European Pharmacopoeia (Ph. Eur.) reference standards:

Catalogue code	Name	Unit quantity	Price
Y0002480	Australian dodder seed for system suitability HRS	210 MG	79 EUR
Y0002481	Grapevine leaf dry extract for system suitability HRS	60 MG	79 EUR
Y0002482	Cinnarizine impurity mixture CRS	0.008 MG	79 EUR
Y0002475	Fludrocortisone acetate for peak identification CRS	15 MG	79 EUR
Y0002478	Fludrocortisone acetate for system suitability CRS	1.001 MG	79 EUR
Y0002472	Baclofen impurity C CRS	0.6 µG	79 EUR

- o **24 replacement** batches for Ph. Eur. reference standards:

Catalogue code	Name	Batch	Unit quantity	Price
Y0000010	Pergolide mesilate CRS	2	150 MG	79 EUR
Y0000198	Ciprofloxacin CRS	2	20 MG	79 EUR
Y0002308	Miconazole impurity G CRS	2	0.02 MG	79 EUR
Y0001915	Aceclofenac impurity I CRS	2	15 MG	79 EUR
Y0002028	Imidacloprid CRS	2	150 MG	79 EUR
Y0001031	Lamotrigine for peak identification CRS	2	15 MG	79 EUR
Y0001888	Colistimethate sodium for peak identification CRS	2	20 MG	79 EUR
Y0001196	Brucine CRS	2	30 MG	79 EUR
Y0001624	Hepatitis A virus Coating Reagent for ELISA - BRR	2	0.5 ML	79 EUR
Y0001913	Human albumin (molecular size) BRP	2	50 MG	90 EUR
Y0001121	Adapalene CRS	3	100 MG	79 EUR
Y0000916	Fluvoxamine impurity D CRS	3	10 MG	79 EUR
Y0001048	Levodropropizine impurity C CRS	3	420 MG	79 EUR
Y0002187	Rivaroxaban CRS	3	110 MG	79 EUR
Y0000703	Moxifloxacin hydrochloride CRS	4	120 MG	79 EUR
C2700000	Colistin sulfate for microbiological assay CRS	4	29.25 MG	79 EUR
S0200000	Salicylic acid CRS	4	100 MG	79 EUR
F0030000	Felodipine CRS	4	100 MG	79 EUR
Y0001009	Quercetin dihydrate CRS	4	25 MG	79 EUR
Y0000596	Diazepam for system suitability CRS - * psy (Diazepam)	4	0.5 MG	79 EUR
Y0001741	Permethrin for system suitability CRS	4	100 MG	79 EUR
A1250000	Aprotinin solution BRP	5	0.5 ML	79 EUR

Y0002501	Tetracosactide CRS	5	20.5 MG	79 EUR
Y0001635	Diclofenac for system suitability CRS	6	1 MG	79 EUR

## Distribution quota

### *Information on distribution quota for immunoglobulin (anti-A, anti-B antibodies test Negative control) BRP (Y0001689)*

Due to premature depletion of stocks of the Immunoglobulin (anti-A, anti-B antibodies test Negative control) BRP (Y0001689), we wish to inform users that a tight distribution quota has been established.

This BRP will be distributed to plasma-derived therapeutic product manufacturers and official medicines control laboratories only, with a maximum of 1 unit per month. This quota may be adjusted according to availability.

This exceptional measure will remain in place until the next batch of this BRP is established, which is expected by the end of 2024.

Distribution of the Immunoglobulin for anti-A, anti-B antibodies limit test BRP (Y0001153) and the Immunoglobulin (anti-A, anti-B antibodies test Positive control) BRP (Y0001688) is not affected by this measure.

We apologise for any inconvenience caused and thank you for your understanding.

## Information on reference standards removed from catalogue

### *Supplement 11.5*

Following the implementation of **Supplement 11.5**, the following standard was officially withdrawn (or replaced) on **1 July 2024**.

Catalogue code	Name	Comments
C2320000	Clomifene citrate CRS	These standards will nevertheless remain available for sale, subject to sufficient stock, until <b>1 January 2025</b> . Likewise, they will remain in the catalogue for a period of 12 months (i.e. until <b>1 July 2025</b> ) to allow users to print the batch validity statement (BVS). See <a href="#">"Change in the policy for withdrawing reference standards from sale"</a> for more details.

## Information on reference standards with a future removal from catalogue

### Supplement 11.6

Following the implementation of Supplement 11.6, the following standard will be officially withdrawn (or replaced) from 1 January 2025.

Catalogue code	Name	Comments
Y0000289	Polysorbate 20 - reference spectrum Will be replaced by a CRS	<p>These standards will nevertheless remain available for sale, subject to sufficient stock, until <b>1 July 2025</b>. Likewise, they will remain in the catalogue for a period of 12 months (i.e. until <b>1 January 2026</b>) to allow users to print the batch validity statement (BVS). See <a href="#">"Change in the policy for withdrawing reference standards from sale"</a> for more details.</p>
Y0000290	Polysorbate 40 - reference spectrum Will be replaced by a CRS	
Y0000291	Polysorbate 60 - reference spectrum Will be replaced by a CRS	
P0309020	Pefloxacin impurity B	
P0309030	Pefloxacin impurity C	
N1230010	Norfloxacin impurity A	
Y0002319	Atorvastatin for peak identification A CRS	
Y0002327	Ciprofibrate for system suitability A CRS will be replaced by Ciprofibrate for system suitability B CRS (Y0002450)	
Y0002197	Deferasirox for system suitability will be replaced by Deferasirox for system suitability A (Y0002456)	
I0600000	Isoprenaline sulfate	
P1255100	Phenylmercuric borate - reference spectrum	
Y0001463	Actaea racemosa HRS	
Y0001958	Colchicine for system suitability A will be replaced by Colchicine for system suitability B (Y0002460)	

### Change of sales units

None

### Information on change of amount per unit

- Lamotrigine for peak identification CRS (Y0001031) **batch 2** contains 15 mg per unit (20 mg previously).

### Information on change of price

None

### Information on change of EDQM storage/shipping conditions

Based on new stability information, storage and shipping conditions will be changed on **15 November 2024** for the following reference standard:

- Tibolone **CRS (Y0002348) Batch 1** remains stored at +5°C and shipped at ambient temperature (previously +5°C).

### Information on International Chemical Reference Substances (ICRS) and International Standards for Antibiotics (ISA)

*ICRS*

None

*ISA*

None

## Content of the European Pharmacopoeia RS catalogue

The EDQM proposes more than [3 100 Ph. Eur. RS](#) including a wide range of highly characterised chemical reference substances (CRS), herbal reference standards (HRS) and biological reference preparations (BRP), as well as reference spectra for the tests and assays to be carried out in accordance with the official methods prescribed in the Ph. Eur.

The Ph. Eur. RS catalogue is updated on a daily basis and gives access not only to all the Ph. Eur. RS, but also to:

- batch validity statements (BVSs) for each reference standard;
- Safety Data Sheets and Safety Data Statements for hazardous biologicals;
- leaflets (downloadable PDFs).

For your convenience, the Ph. Eur. RS catalogue is published daily and can be downloaded in [PDF format](#) and in [XML format](#).

When stocks of a given reference standard are low, the EDQM reserves the right to limit the quantities sold to each user to ensure that as many users as possible will receive at least some of the quantities available. Restrictions on quantities are applied at the time the purchase order is received.

Following a request from many users, the quantities allowed in case of sales restrictions now appear in the online catalogue as well as in the catalogue in XML format.

The EDQM is also responsible for the establishment, preparation, storage and distribution of WHO ICRSs and ISAs.

## How to place an RS order

If you wish to place an order, you can send your request to the EDQM either:

- o via the [WebStore](#);
- o or by e-mail to [orders@edqm.eu](mailto:orders@edqm.eu) (in this case, please ensure that your order, on your company letterhead, states both the catalogue code and substance name and is attached to your e-mail).

A [video](#) has been prepared to help users ordering through the RS WebStore.

## Helping users test *Pharmeuropa* draft texts with “qualified samples”

In some cases, “qualified samples” are made available by the EDQM when a new issue of *Pharmeuropa* is released to allow users to check the changes (e.g. to the related substances test) proposed during the public enquiry and best prepare for the implementation of the monograph.

After use, users are kindly requested to share their results with the EDQM.

Where a qualified sample is available, it is described in the briefing note of the *Pharmeuropa* monograph and may be ordered free of charge by making a request via the EDQM [HelpDesk](#).

To place an order via the EDQM [HelpDesk](#), please select “European Pharmacopoeia” and choose the category “Question about General Chapters and Monographs”. For rapid processing, please:

- o provide your full shipping address;
- o specify the title of the corresponding Ph. Eur. monograph;
- o include “Qualified sample” in the subject of the query.

Consult the [HelpDesk User Manual](#) for more information on how to use the EDQM [HelpDesk](#).
